

September 25, 2009

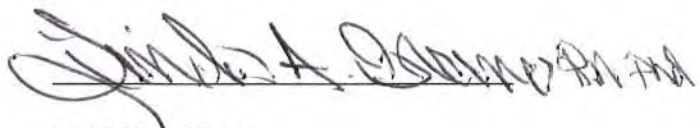

This letter is an expression of the intent of ISOH/IMPACT and Mercy Children's Hospital to work together to provide medical care to children from developing countries who do not have access to adequate medical treatment elsewhere.

ISOH/IMPACT is a community-based nonprofit, tax-exempt, charitable organization whose mandate is to ensure a brighter future for children through domestic and international relief, medical rehabilitation and development efforts across the globe.

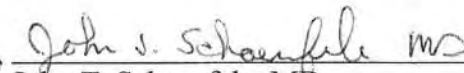

The Mission of Mercy Children's Hospital is, as a member of Mercy Health Partners, to extend the healing ministry of Jesus by improving the health of its communities with emphasis on people who are poor and underserved. To maximize the benefit of the services it offers, Mercy Children's Hospital has a policy in place to determine how it can work with the special needs of children from developing countries who are in need of its specialized care. This policy results in a complete plan of care for each child, uses resources efficiently and effectively, and assures the best possible outcome for those children accepted for care.

In order to further the interests of both organizations and the patients they serve, the parties agree that ISOH/IMPACT will have the exclusive right to work with Mercy Children's Hospital to coordinate care of the patient population described in this letter.

By working together, ISOH/IMPACT and Mercy Children's Hospital look forward to furthering the mission of both organizations, and extending their shared ministries.

ISOH/IMPACT

John T. Schaeufele, MD
